

Aiming to be all-time active player, I will stand firm as stylist !

I am an active general manager of the women's league of commercial chamber. The chamber organizes each year its stand at Washi-no-Sato Culture festival and village's commercial festival. Before the spread of Covid-19 disease we offered rice and curry, we now changed to offer Udon and Miso-potato. We regained our study tour, which was suspended or limited owing to Covid-19 Pandemic. Last year we took a trip to Yamanashi Prefecture. Practicing the function of the general manager I faced various problems such as the job as remote conference in the Pandemic, but I am very glad as we are regaining pre-Pandemic style.

I am running a beauty parlor at Shishido already 29 years. Originally, I attended 3 years at a beauty parlor in Kawagoe, and worked 11 years at a parlor in Ogawa. Passing through the period of raising up my children, I opened my parlor at the age of 39. The job of the stylist at that time was a resident employee. I piled up my experience, including the job of sweeping and a baby sitter, after this experience and passing the state examination, the job as stylist was entrusted. I got married and passing through 8 years as the period of raising up my children, I regained my job as stylist. The long period blank costed me a bitter time more than I had imagined, but the smiles of my children cured me for tomorrow's well-being. I spend a very happy day every day thanks to nice clients. I will make efforts aiming to be a life-time active player thanks to my neighbors support.
