

On May 12 (Sunday) , 2024, in Shiroishi region, the sending off of the gods was effected. Presently this festival is effected in our village only in Shiroishi region. Keeping in hand Mikoshi (portable shrine) made of the leaves of Japanese cedar and green bamboo, and flags with the plagues written, people marched in a row upto our region limit. On that day also the children participated in the festival, walking upto the end, carrying a heavy flag.
