

In 2024 7 persons received the mark of 100 years old. Congratulations!

To celebrate the age 100, and thanking for their efforts to contribute for a long time to the development of our society, Japan's Prime Minister awarded Congratulation Certificate and Higashi-Chichibumura Social Welfare Committee presented a memorabilia to those people. The village chief Takano transferred this effect to them.

When we asked the secret of longevity, they replied "Eat everything without like and dislike feeling"
