

The village received the contribution (Home Town Tax Payment) of 3,711,000 Yen in 2023. In this special issue we inform you of the activities to establish the future Higashi-Chichibumura through utilization results of the contribution and the voices of the handling persons.

What is Home Town Tax Payment??

This is the system through which one can contribute to his own home town or regional government. This contribution, under certain conditions, gets a preferential treatment as a part of the paid tax is returned to the contributor or a part of residence tax is exonerated. It is also a charming system through which you can indicate the use of the contribution or you can receive return of the local specialty.

Three charms of Home Town Tax Payment

You may contribute to the local government	You can receive a local specialty	A part of your tax is exonerated
「Education, child raising, community building, industrial development and disaster reconstruction support, etc. you may direct the local government how to use the paid contribution. 」	「From the local government you contributed, you will receive the local specialty. To the contributor and local government it is a big merit that Home Town Tax Payment can make known the local specialty of your territory. 」	「 In accordance with the contributed amount and under certain conditions, a part of your income tax will be returned, and a part of resident tax will be exonerated.」
