

At Fureai square on September 23(Monday, holiday) “ Higashi-Chichibu Manjushage festival 4<sup>th</sup> version ” was opened. Manjushage is the another name of Higanbana(Cluster Amaryllis). This flower glows in colony around the Fureai square, so you can see it in sightseeing, in autumn and in red color.

Satoyama-no-kai opens this festival to make famous our village, and we enjoy this fourth version this year. We welcomed many visitors from inside and outside of the village. The festival was bustling with many booths and events on stage.
