

Mr. Ido, who operates a shop “Future Prospect(Miracles)” buying and remodeling second hand articles in Sakamoto region, told us that he was really happy as he started his business in the village, thanks to the villagers’ gracefulness and frankness.

The encounter with Higashi-Chichibumura, in order to expand the image of the village, when he was searching images of renovating vacant houses in Internet, he by happen found property information of Higashi-Chichibumura. Later he visited the village for the first time.

When he started establishing work to start the business, he found the building was too old and he needed to repair it. The villagers positively moved, including the presentation of housing professionals.

While working by himself the part which he could do, painting walls for example, many villagers supported him, as doing babysitter, bringing a present for him without telling his name, presenting a furniture which may be useful for his shop, etc. Miraizu consists of many such people.

Mr. Ido believes the No.1 charm of the village is its persons. Sitting in the shop, he finds the neighbors who share something with him, and the children who drop by. There is no such warm and rich place. I am really happy to have started my operation in Higashi-Chichibumura.

03 Future Prospect (Miracles)

Coming to find the merit of the village

Passing to understand the people’ s warmth

Therefore I believe “The good village”
